STAIN TECHNOLOGY

A JOURNAL FOR MICROTECHNIC

VOLUME 24

1949

Published by
BIOTECH PUBLICATIONS
GENEVA, N. Y., U. S. A.

Printed in the U. S. A.

CONTENTS

No. 1, January 1949

A Comparison of American Stains with Recent German Products. Mary A. Darrow, Frances Knapp, Elmer Stotz and H. J. Conn 1
Pollen Tube Culture on a Lactose Medium. Charles J. Bishop 9
The Selective Demonstration of Red Blood Pigments (Hemoglobin and Erythrocruorin) in Microscopic Balsam Preparations. Jan Hirschler 13
A Rigorous Re-definition of the Plasmal Reaction. E. Russell Hayes 19
The Histochemical Demonstration of Glycogen by Silver Complexes. J. P. Arzac and L. G. Flores 25
Concentrated Formalin Versus a 10% Solution as a Fixative Preceding Silver Staining. A. M. Lassek and Margaret M. Powers 33
Brilliant Cresyl Blue as a Stain for Plant Chromosomes. Wilson N. Stewart and Ann M. Schertiger 39
Treatment of *Trillium Erectum* Prior to and During Mass Production of Permanent Smear Preparations. A. H. Sparrow and Rhoda C. Sparrow 47
A Single Solution Iron-Hematoxylin Stain for Intestinal Protozoa. Morris Goldman 57
The "Dispersion Staining" Method for the Selective Coloration of Tissue. Germain C. Crossmon 61
Laboratory Hints from the Literature
Microscope and Other Apparatus 67
Microtechnic in General 68
Animal Microtechnic 68
Plant Microtechnic 70
Microörganisms 71
Histochemistry 72

No. 2, April 1949

Hematoxylin-Neutral-Red. A Stain for Cell Inclusions and Certain Tissue Elements. R. E. Duffett 73
Negative-Staining of Protozoa with Nigrosin. Robert M. Rosenbaum 79
Differentiating Yeast Ascospores and Vegetative Cells. E. Edward Evans, Carl W. King and James W. Bartholomew 85
A Rapid Rosin-Celloidin-Paraffin Method for Embedding Tissues. Edward D. Crabb 87
Staining the Tubercle Organism in Sputum Smears. Mary A. Darrow 93
Hydrochloric Acid as a Fixative for Root Tip Chromosomes. D. U. Gerstel 95
A Method for Mass Preparation of Multiple Histopathological Slides. Joaquin G. Dacanay 99
An Azocarmine Stain for Differential Cell Analysis of the Rat Anterior Hypophysis. Benjamin Briseno-Castrejon and John C. Finerty 103
The Histochemical Detection of Iron in Tissues. Henry Bunting 109
Golgi's Dichromate-Silver Method. 1. Effects of Embedding. 2. Experiments with Modifications. Robert W. Porter and H. A. Davenport 117
The Feulgen-Picric-Acid Block Stain. Additional Data. John F. Lhotka and H. A. Davenport 127
Laboratory Hints from the Literature
Dyes and Their Biological Uses 133
Animal Microtechnic 133
Plant Microtechnic 134
Microörganisms 134
Histochemistry 134

No. 3, July 1949

Plastic Embedding of Thick Celloidin Sections of Nerve Tissue. Lauren E. Rosenberg and James R. Friend, Jr 137
Acid Thionin Stain for Nissl Bodies on Frozen Sections. Alice M. Laskey 143
A New Fixative for Vaginal Smears. Harold B. Davidson, Martin Clyman and Ruth L. Winston 145

A Chemical and Histochemical Study of the Technic for Acid Phosphatase. M. Rabinovitch, L. C. Junqueria and A. Fajer 147
Initial and Persisting Staining Power of Solutions of Iron-Hematoxylin Lake. Richard A. Groat 157
Observations on the Staining of *Corynebacterium diphtheriae*. W. Blake Christensen 165
Some Modifications of Warmke's Permanent Section-Smear Method for Plant Chromosomes. Wray M. Bowden 171
Sudan Black B—A New Stain for Chromosome Smear Preparations. Isadore Cohen 177
A Rapid Technic for Demonstrating Mast Cells in Mouse Skin. Paul A. Zahl and A. Nowak, Jr 185
Notes on Technic
Ponceau-Fuchsin as a Routine Counterstain. J. H. Kugler 191
Delafield's Hematoxylin Combined with Safranin for Anatomical Preparations of Plant Parts. Richard I. Evans 191
Biological Stain Commission, Membership List, 1949 193
Laboratory Hints from the Literature
Microscope and Other Apparatus 195
Photomicrography 195
Microtechnic in General 195
Dyes and Their Biological Uses 196
Animal Microtechnic 196
Plant Microtechnic 198
Microörganisms 199
Histochemistry 200

No. 4, October 1949

The Demonstration of a New Nerve-Cell Organoid. Owen Lewis Thomas 201
Thiazin Dyes in Supravital Staining of Nerve Fibers. Richard E. Heller, Grier F. Starr, and H. A. Davenport 207
A Method for Demonstrating the Presence of Alkaline Phosphatase and Glycogen in the Same Section. B. F. Martin 215
Combination of Certain Fluorane Derivative Dyes with Bacterial Cells at Different Hydrogen-ion Cencentrations. J. O. Harris 217
A Simplified Method for the Double Embedding of Tissue. Theresa M. Banny and George Clark 223
A Five-Hour Variant of Gomori's Methenamine Silver Method for Argentaffin Cells. H. Jacquier Burtner and R. D. Lillie 225
Whole Mounts of Flat and Round Worms for Morphological Studies. C. M. S. Dass 229
Staining of Plant Materials Cleared in NaOH. Thomas Morley 231
Deterioration of Schiff's Reagent. John F. Lhotka and H. A. Davenport 237
Mounting Media for Phase Microscope Specimens. Germain C. Crossmon 241
Notes on Technic
A Suggestion for Prevention of Loose Sections in the Bodian Protargol Method. Helen Davies and Pinckney J. Harman 249
The Differential Staining of Amphibian Yolk Granules. Ira J. Laufer 249
Laboratory Hints from the Literature
Microscope and Other Apparatus 251
Dyes and Their Biological Uses 251
Animal Microtechnic 251
Plant Microtechnic 252
Microörganisms 252
Histochemistry 254
